

Hi Epiphany students and parents!

Summer is almost here! This year we will be completing a summer enrichment log. During the summer, you will be filling in a log of the math and reading activities that you do.

For each 15 minutes of reading or math practice you will fill in one Epiphany Click!

Math activities can include:

- Prodigy
- multiplication.com
- Reflex Math
- flashcards

Reading activities can include:

- Books
- Magazine
- News Articles
- Epic

The goal is for everyone to do at least 15 minutes of reading or math a day. This will be about 25 hours over the course of the summer. Students that meet this goal will be given a reward. The 3 students with the most hours logged will be awarded an extra prize.

Parents, please make sure that you sign the bottom of each log. Thanks!
